MESSAGE FROM THE CEO

Today the marketing trend is completely changed to a new face as the traditional marketing results are dissatisfactory. Digital and social media marketing are rising values. Many companies and organizations in Dubai invest a colossal amount in online advertisement and digital marketing due to pay-per-click & Location-based services which force the advertisers to pay each time someone views the advertisement. The motivation to start ONEROAD Media came up from the thought, How to connect with our advertisement directly to people from online to offline media solutions. We explored the world of DOOH (Digital Out Of Home) Advertisement and the hidden world of Elevator DOOH advertising. This confined space works well as people will be actively looking for something to get engaged in and Elevator marketing works.

We are devoted to communicating with our client's target markets. We work within budget constraints and are evolving with our clients, marketplace, and technology. Without any trial-and-error methods, we can drive our clients to reach the success point in a wide range of industries.

2

WHO WE ARE

ONEROAD Media LLC was established in 2018 in the booming heart of UAE, Dubai to source elevator Advertising in the nation's foremost premier commercial and residential towers and other buildings.

Helmed by its visionary founder Mr. Xie, the firm has since become one of the leading and upcoming providers of elevator advertising using LCD Digital Signage's installed outside and inside the elevators of the buildings across Dubai, UAE, a reputation built upon an ethos of mutual trust, professionalism, and cooperation, our broad array of distinguished clients in many industrial sectors, Retail, service providers, including the Government sectors, serving as a testament to our meritorious standards of customer service and fulfillment.

OUR SERVICES

Dubai is moving fast which makes harder for people to connect. We are present where people lives and where they work. Our services is the actual need of every business in UAE which is to reach their brand to the right audiences.

We can help in connecting people through our services which are:

**ELEVATOR
DIGITAL SIGNAGE**

**LED
RENTAL**

**EVENT
MANAGEMENT**

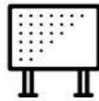

**MARKETING &
CONSULTING**

ELEVATOR DIGITAL SIGNAGE

Advertising on our LCD Screen with high definition resolution is a clever way to promote your local business. Choose from two types of display formats (Video / Image). Runtime of around 15-20 secs, looped for 24 hours, displaying ads for more than 360 times a day.

LED RENTAL

Providing high-quality LED screens for rent, catering to events, conferences, advertisements, and productions both indoors and outdoors. The service might emphasize flexibility, ease of installation, and customizable configurations to meet client needs for media displays.

EVENT MANAGEMENT

Our Event Management services cover planning, coordination, and execution of events that captivate audiences and leave a lasting impression.

MARKETING & CONSULTING

Our Slogan explains it well. "WE MAKE BRANDS VISIBLE". We provide marketing solution & consultancy services regarding your marketing / promotion campaign to increase your desired revenue generation.

BENEFITS OF ELEVATOR ADVERTISEMENT

Accurate Audience

Advertising on elevators enable advertising to a captive audience. It makes good use of people's blank psychology in the elevator. The audience cannot completely avoid and refuse to pay attention to the elevator.

High frequency

Elevator advertisements directly target all the audiences. The target groups include one family, several families, multiple groups, different ages, genders, and different consumer-oriented groups. High attention rate on the advertisements, with spending an average of 3 minutes per visit.

Cost-effective

This form of advertising is cheaper when compared to other forms of advertising. The low cost and high impact is the main attraction for small businesses.

Prolonged focus-time

In an elevator, the person is forced to see the advertisements and will not be distracted. The audience gets a closer look at the ads which promotes the remembrance value of the featured advertisements.

Reachability

An elevator LCD screen advertisement covers 3 times more audience than an average traditional media advertisement. FOOTFALL on our buildings are approx. 1,900,000 per Month

Brand Recall

With minimum distractions and focused content display, the brand recall rate is 84%
